

## OSHA COMPLIANT INSPECTIONS

We provide OSHA Compliant Inspections and repairs of all makes and models of cranes and hoists.

### Are You Making Safety a Priority in Your Facility?

Safety is not about what is lost, but what it saves! American Crane's highly experienced OSHA compliance inspection teams have many years of inspection experience. We provide inspection services for our own cranes as well as other manufacturers' equipment to ensure their safe operations and longevity.

### OSHA INSPECTION INTERVALS:

**Frequent:** Monthly

**Periodic:** Quarterly, Semi-Annually, Annually

- Identify OSHA Violations
- Improve Equipment Safety
- Prevent Accidents
- Decrease Downtime
- Decrease Insurance Costs
- Avoid Costly OSHA Violations

Your equipment is subject to strict government regulations and OSHA Standards. View the Requirements Section of the OSHA 1910.179 regarding Overhead and Gantry Cranes.

### Our OSHA Inspections include:

- Evaluate critical components on your cranes, contactors, brakes, hooks, wire rope, etc.
- Perform visual inspection of hoist drum, trolley rails, girders, wheels, end trucks, upper sheave nest, lower block, bumpers, end stops and keyway to line shaft connection.
- Measure wire rope and hook tram.
- Record all inspection information and complete lubrication and fluid level check of your crane/equipment.

We also provide a full range of follow-up services including: repairs, rebuilds and modifications.

**FOR EMERGENCY SERVICE:**  
Call: 877.503.2972 Option #9
